

## Directions and delivery fair construction / shipping companies

### Address:

Kosmos  
Karl-Marx-Allee 131a  
10243 Berlin

Access via Ludwig-Pick-Straße

### From the north

From motorway A114: pass through until B109 towards Zentrum/ Prenzlauer Berg on Prenzlauer Allee. Turn left onto Petersburger Straße (B96a) and turn right after approx. 3 km onto Weideweg. You reach the Kosmos via the Ludwig-Pick-Straße.

### From the east

From motorway A10: Exit to B1 (feeder to Karl-Marx-Allee) towards Berlin-Zentrum. After approx. 15 km turn right at Frankfurter Tor onto Petersburger Straße (B96a). You circle almost completely around the Bersarinplatz and turn right onto Weideweg. You reach the Kosmos via the Ludwig-Pick-Straße.

### From the west

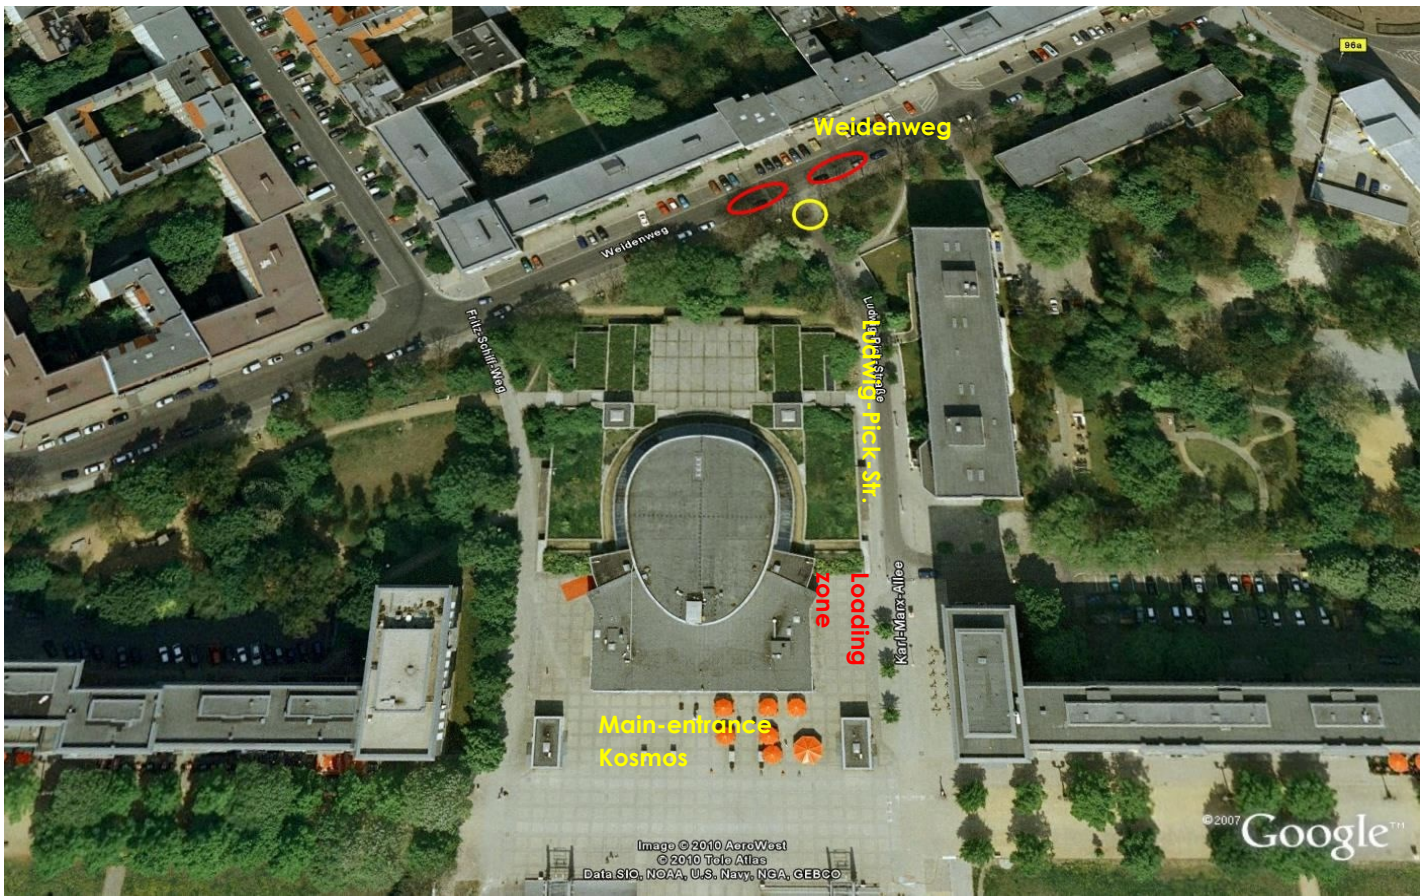

Drive on B5 towards Berlin and turn right onto Straße des 17. Juni (B5). On Alexanderplatz turn right onto Karl-Marx-Allee (B1). Pass through until Frankfurter Tor and turn left onto Petersburger Straße (B96a). You circle almost completely around the Bersarinplatz and turn right onto Weideweg. You reach the Kosmos via the Ludwig-Pick-Straße.

### From the south

Drive on B96 towards Berlin and after approx. 14 km turn right onto Skalitzer Straße (B179). After Oberbaumbrücke, Skalitzer Straße merges into Warschauer Straße (B 96a). After approx. 6 km you circle almost completely around the Bersarinplatz and turn right onto Weidenweg. You reach the Kosmos via the Ludwig-Pick-Straße on the left side.

### How to get there:

### **Loading and unloading area**

The loading and unloading zone are located directly next to KOSMOS (access via Ludwig-Pick-Strasse). There is a supplier access, which can be used for loading and unloading. All vehicles must be removed from the site immediately after (un-)loading. Permanent parking in this area is not permitted. During waiting times, engines have to be turned off. The maximum weight of trucks in the supplier access zone may not exceed 18 tons, i.e. a maximum of 3 to 4 vehicles of 7,5 t may stop there at the same time.

The foyer may be accessed at ground level from the loading and unloading zone. The walkway may be accessed from a loading ramp that is 1.10 m wide. A mobile ramp (0.72 m wide) allows easy material transportation to Hall 1.

The delivery is only permitted during the mentioned construction periods.

### **Parking areas**

There is no parking space for trucks, trailer and transporters. They have to be parked at **public parking spaces (fee-based)**.

Vehicles with a maximum height of 1,90 m can be parked in the KOSMOS' public underground garage at extra costs.

Only during set-up and dismantling times parts of Weidenweg will be closed as loading zone and may be used for longer parking periods during the day.

There are no truck parking areas in Berlin. We recommend to use the bus parking space at the [AVUS Nordkurve/ Messe Berlin](#) instead. Address: Halenseestr., 14055 Berlin-Charlottenburg (distance from the KOSMOS 13,8 km)

**As the loading area is relatively small, please plan enough time for loading and unloading!**

The city of Berlin belongs to the environmental zone and can only be entered by vehicles with a valid emission sticker.

Please ensure to bring your own **lift trucks or trolleys** if required. A maximum of one lift truck can be borrowed from KOSMOS only for short term use. Brought in transportation carts must be equipped with rubber wheels (no hard plastic or steel). Rubber mats or wooden boards have to be brought as a basis for pallet cages. The usage of forklifts inside of KOSMOS is prohibited.
